

LIVE AI HOST · COLOR GAME

CHIC CHANCE

Guess the color. Watch the reveal.

B2B PRESENTATION · DEMO BUILD · 18+

THE GAME

A new host every 15 seconds

A vertical feed, like TikTok. Each round an AI host appears in a neutral coat. The player bets on the color of the dress underneath, then watches the reveal.

7

outcomes: six colors and rare gold

96%

RTP on every bet, 94% and 97% versions

15 s

per round, played at the player's own pace

How a round plays

0-7 s

Bets

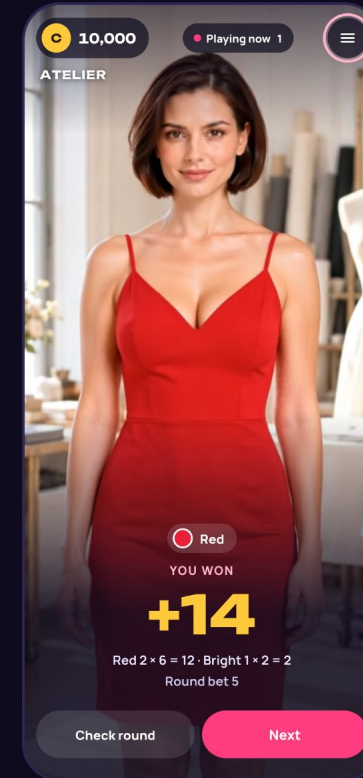

Intro clip and countdown. Bets on any number of positions.

9-14 s

Reveal

Bets close at 7 s and the server fixes the outcome. Only then is the reveal clip sent.

14 s+

Result

Win shown for 3 s, a calm "Not this time" for 2 s. Then the next host.

Bets and payouts

Bet	Wins on	Payout	Chance	RTP
Single color ×6	red, yellow, blue, black, white or green	6x	16%	96%
Gold	gold	24x	4%	96%
Bright	red, yellow, blue	2x	48%	96%
Classic	black, white, green	2x	48%	96%
Black & White	black or white	3x	32%	96%
Colorful	red, yellow, blue, green	1.5x	64%	96%

Gold is the rare color. Group bets lose on gold, which keeps every bet at the same 96%.

Players can combine positions in one round, including Bright and Classic together. Round, easy-to-read multipliers.

Figures for the 96% version. Full PAR sheet on request.

Three RTP versions

94%

Gold pays 15.5x

Gold in 6% of rounds

96%

Gold pays 24x

Gold in 4% of rounds · the demo default

97%

Gold pays 32x

Gold in 3% of rounds

All other payouts are the same in every version. The operator chooses the version.

200

max on gold

20,000

max win per round

Three hosts, three locations

Atelier

Fashion-house atelier, daylight. Grey trench coat before the reveal.

Rooftop

City rooftop, evening lights. Lavender satin cape before the reveal.

Beach Club

Seaside terrace at sunset. Powder-pink silk kimono before the reveal.

3 hosts are for the demo only. The full version brings many hosts, with new ones added all the time.

CONTENT

Dresses, not lingerie

Our hosts reveal a dress, never underwear. With no lingerie and no nudity, the game can be published with fewer adult-content restrictions.

Swimwear mode

If the aggregator prefers, hosts reveal swimwear instead of dresses.

Your look

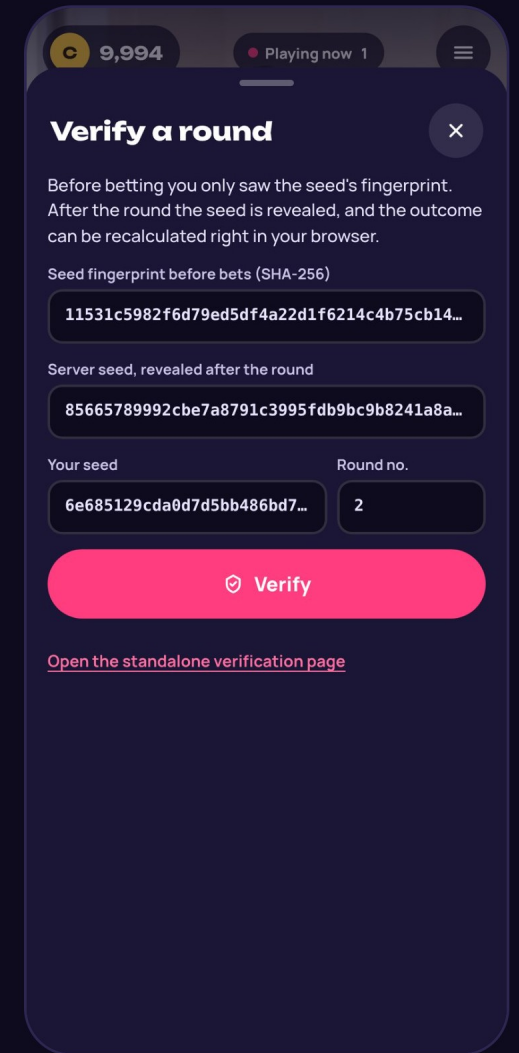

Hosts, outfits, locations and branding can be tailored to your audience and rules.

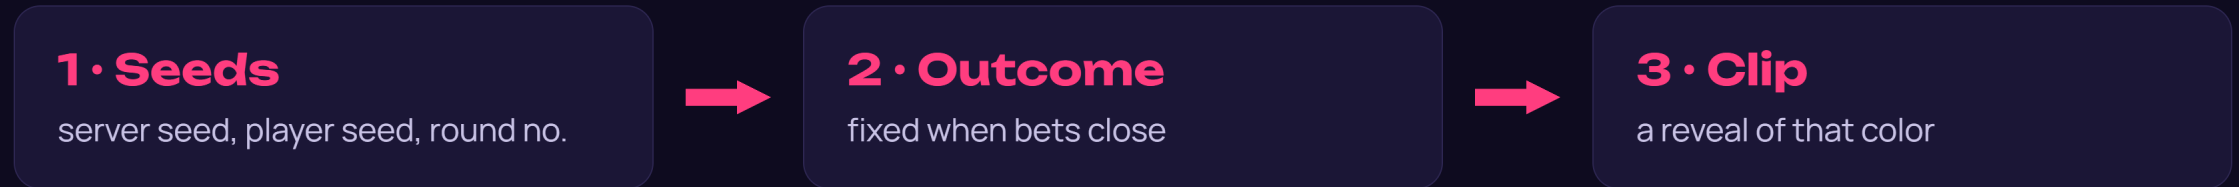

TRUST

Provably fair, in the browser

- 01** Before bets, the player sees the SHA-256 fingerprint of the server seed.
- 02** The player can set their own seed in settings.
- 03** The outcome is computed from both seeds and the round number.
- 04** After the round the seed is revealed, and “Verify” recalculates the outcome on the player’s device.

The video cannot leak the outcome

The video never decides

The server picks the outcome by weight. The clip only shows it.

Reveal sent only after bets close

Clip links are signed and short-lived. Automated tests check that the client never loads a reveal early.

Every intro ends on one frame

Any intro joins any reveal of the same host, so the intro says nothing about the color.

Every clip is checked

Each reveal is tested so the dress color does not show in its first second. The clip library is hashed.

LOAD TEST

24 hours under load

361,037

rounds played by 50 bot players

0

errors and money mismatches

44 ms

bet accepted, 95th percentile

31 ms

round start, 95th percentile

252,848 rounds with bets, all settled. The ledger of 867,896 entries matches every player balance.

Built for operators

Hosts on and off

Enable or disable any host from the back office, with no release. Applies to new rounds.

Reports

Stake, wins, GGR, actual vs target RTP by day, outcome shares. Excel and CSV.

Rounds

Filter rounds, open any one and re-verify it from its seed.

Audit log

Every sign-in and change, with time, user and IP.

Feature flags

Autoplay, All In and responsible-gaming tools switch per operator.

Languages

English, Spanish, Brazilian Portuguese. A new language is a translation file plus voice lines.

Made for one thumb

Betting

Chips from 1 to 500. Undo, Clear, Repeat, x2. Auto for 5–50 rounds with stop rules. All In with confirmation.

Responsible gaming

Session timer, a reminder every 30 minutes, take a break. Bet history and the last 100 outcomes.

Sound

Music for each host, the host's voice in each language, sounds for chips, countdown and gold.

Resilience

Reconnects by itself and accepted bets still play. If a video fails, the result shows as a color and text.

Where we are

Ready in the demo

- Game client in three languages
- Game server with money ledger and back office
- Three hosts, 78 clips
- Three RTP versions with PAR sheet
- 24-hour load test passed

Next

- Seamless-wallet integration with the first aggregator
- Operator currencies and market settings
- Independent lab certification
- A complete library of clips and many new hosts
- Shared scheduled tables on the same clips

We adapt to you. Integration, content and branding can all be shaped to each aggregator's requirements.
